 PLACE: CONTINUING CARE CENTRE CAFETERIA ON SANATORIUM RD
 AT THE BROW

OCTOBER MEETING - OCTOBER 21, 1981

"The Ultimate Station" - John Bartlett, VE3DHH, who has owned and operated almost all of the equipment made by every major manufacturer in the world, will discuss their pros and cons. Of interest to those who wish to assemble the "ultimate station", or those starting out - what's really required to get into this hobby? John gives an unbiased assessment of today's market offerings, based on his wide experience and collected information - from Keyers, to antennas, to TTYs, to

The Presidents Page

It is with deep regret that we mourn the passing of Syl VE3 CEC another victim of Cancer. 73 dear friend who last month sent me his proxy to return to the Nash Auditorium for our monthly meetings and also sent a donation to the Repeater fund. Let us all emulate his generosity.

Our Editor has agreed to carry on but he needs our support, if we all write one article he will have enough for the next two years. How about the latest in C.W. operating, someone probably still operates C.W. ? is anyone operating Slow Scan, I hear some talk that members use computers in the ham shack. Is there a future for 2 meters and other controversial subjects. George is open to all offers.

Are you satisfied with the way the club is being run ? Do you think that you would like to a better job, if only you had the opportunity. You do have that opportunity, Election night is November 18 th and all positions are available except for Past President and I intend to run for that office unopposed.

November is your opportunity to bring that goody that has been decorating the shack and offer it on the auction block. All proceeds going to the Repeater fund and for anyone who isn't aware, the repeater has been ordered delivery date is november, all we have to do now is pay for it and its all ours.

Best 73 Gerry VE3 HLI

POLITICAL ANNOUNCEMENT

HARC elections are just over the horizon -- so it wouldn't hurt to start collecting your thoughts about who should be running the club. You might even consider throwing your hat in the ring.

The complaint is sometimes heard that the same group seems to be running things year after year. It isn't by choice. The problem is getting new recruits to volunteer for office. Why not take the plunge this year? Taking an active part in the club will add something meaningful to your life and enhance the pleasure of your ham radio hobby.

Stan, VE3GFE, has been designated a committee of one to make nominations. Let him know if you would like to be on the list.

TRAVEL NOTES

VE3LJL, Gordon Cott, who moved to Notre Dame, N.B., in the Moncton area, now has the call VE1AVQ. Look for him on 80 in the evenings, or 20 during the day.

* * * *

VE3EOY, Garnet, has retired from Westinghouse and moved to the Annapolis Valley of Nova Scotia. It certainly has the apples. Wonder if it has other attributes of the Garden of Eden?

* * * *

VE3JTX, Pat Patterson, is another ham who has departed from Hamilton. He has moved to Moose Jaw, Sask., where he is now an instructor at a technical college.

* * * *

TALE OF THE TAPE

Stan, VE3GFE, is still collecting Dominion Store tapes if you have any you would like to contribute. Just bring them along to the club meeting.

* * * *

IT'S A BOY

VE3KTJ, Roger Brazier, is a proud grandfather. Second-oldest daughter Theresa (Mrs. Mike Hannaford) gave birth to a bouncing boy on Oct. 13. The new arrival's name is Norman Bryce.

CJ DIRECTORIES

The Chicken Junction Directory is available in two forms: the full-size listing of Ontario hams for \$8, and a mini-list of hams who have checked into the CJ Net, for \$1. Either may be obtained by mail from the CJ Association, Box 284, Chatham, Ont., or by hooking up with Joe Kirby, VE3ST, on the CJ Net, and giving him your order. Or they may be obtained locally from Stan, VE3GFE, either at club meetings or at his home.
