

Hamilton Amateur Radio Club SINCE 1932

14th June 2024 Membership update:

- There will be no general meeting.

Enter to win: Free Membership

Win a free membership for a year by renewing your membership, or by joining the Hamilton Amateur Radio Club now. We have extended the membership for any new Members that join the Club at this time. Renewals as well as new members will be entered in a draw, to be held at our initial meeting of the 2024-2025 year in September. The winner of the draw will get a free membership.

Field Day 2024:

Objective

To contact as many stations as possible on the 160-, 80-, 40-, 20-, 15- and 10-Meter HF bands, as well as all bands 50 MHz and above, and to learn to operate in abnormal situations in less than optimal conditions. Field Day is open to all amateurs in the areas covered by the ARRL/RAC Field Organizations and countries within IARU Region 2. DX stations residing in other regions may be contacted for credit, but are not eligible to submit entries.

Each claimed contact must include contemporaneous direct initiation by the operator on both sides of the contact. Initiation of a contact may be either locally or by remote..

From Peter VE3XLQ:

On June 22nd and 23rd, HARC will be participating in the annual ARRL/RAC field day event. We will be conducting our field day starting setup on the 22nd at 10am, starting operation at 2pm and finishing operation at 2pm on the 23rd. Our location for this year's event has been generously donated by the Royal Canadian Corps of Signals and will take place at the Winona Rifle Range at 746 Winston Rd, Grimsby.

Band captains have been selected and we will be operating on the 80, 40, 20, 15 and 10 Meter HF Bands using all modes (Sideband, CW and FT8). We will also be conducting operations on the UHF and VHF bands periodically.

Stations and antennas will be setup but your help in operating our stations is needed. Spend the night if you want (military cots are available).
